PEONIES and IRIS

Grown By
L. D. BAKER PEONY GARDENS
Kendallville, Indiana

SHIPMENTS—For Iris will begin July 1. For Peonies Sept. 1 until the ground freezes.

SIZE OF PEONIES—Large 3 to 5 eye divisions with strong, healthy root systems.

TRUENESS—All plants are guaranteed true to name.

TERMS—Cash with order unless credit rating and reference given.

LOCATION—One mile west of Kendallville, on U. S. Road 6. 25 miles north of Fort Wayne.

A Word

about the quality of roots which we supply. Our plants are grown on a rich loam which develops excellent root systems. These roots are lifted and divided every two or three years. We never sell divisions from old clumps. The roots we send are three to five eye divisions. The important thing is not how many eyes, but how strong the root system. We guarantee our stock to be free from nematodes and Lemoine's disease and healthy in every respect. We are sure you will be pleased with the quality of our stock.

Double Peonies

Iris Collections

Any 15 of the 10c or 15c varieties for \$1.25

Any 15 of the 25c varieties for \$3.00

Label Your Plants With the BAKER Permanent Marker

Patent Applied For

You will save enough time and labor in marking your plants to pay for these fine permanent markers the first year.

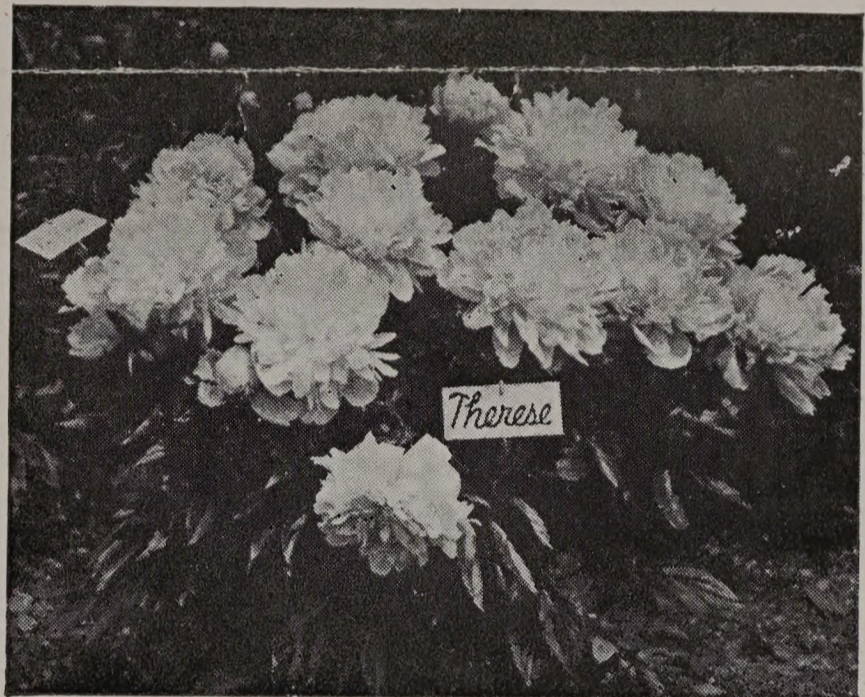

Names are written with a special metal marking pencil which we furnish free. Writing becomes permanent.

Dozen
Size 4½x2 Standard 30 inches **1.25**

Hundred **8.50**

Dozen
Size 3x1¾ Standard 20 inches **1.00**

Hundred **6.95**

This shows easy reading arrangement

Marker is made of zinc giving ample room for writing or printing. The standard is of No. 8 galvanized wire, 30 in. long. It won't rust.

The zinc label is held firmly to the standard and the label may be tilted by bending the wire so it is visible without stooping. Names are easily applied with metal marking pencil and writing is permanent.

Simple, Inexpensive, Neat.

HERE is a safe, permanent way of marking your plants. Inexpensive too. Ordinary stakes cost nearly as much and they have to be replaced. One mistake avoided will repay you for all they cost. We have used them in our own gardens for a number of years and have developed this as the most satisfactory and permanent method possible. Especially desirable for iris, peony and gladiolus plantings and nursery stock.
